Livelihood Support to Empower Rural Women

A number of women from our different Self Help Groups (SHGs) have lost their livelihood due to lockdown. But they took up the cause and began stitching cotton masks as an additional source of income for their families.

Close to **1,70,000 lakhs face masks** have stitched as organized by our offices in Gujarat. The masks have been distributed to all sections of the public including police personnel, vegetable vendors, Aanagawadi workers, and others who are providing public services of essentials.

Income generated from this project made it successful for all the SHGs involved.

We are proud of the efforts of our women.

Together we will overcome this crisis!

One of the SHG ladies has stitched face masks to curb the spread of coronavirus and provided them to the duty officers and hospital.

The sewing machines have been provided to these SHGs by Anarde Foundation.

These groups are thankful to the donors and Anarde Foundation.

SHGs ladies from different centers in Gujarat for making face masks

Fighting Hunger: Distribution of Ration Kits

Thousands of villagers were affected by the loss of income due to halt of wages during the lockdown and unable to access face masks, food grains, and supplies for their household.

We organised ration kits of grain, and food essentials to help poor tribal and needy families survive through these difficult times.

Our team distributed **1111 ration kits to 5500 rural households across 44 villages in Gujarat and Maharashtra.**

We are grateful to our Corporate donors - Aegis Logistics Limited, Ratnamani Metals & Tubes Ltd and Indian Oil Corporation Ltd.
